Lolly App – Pre Order

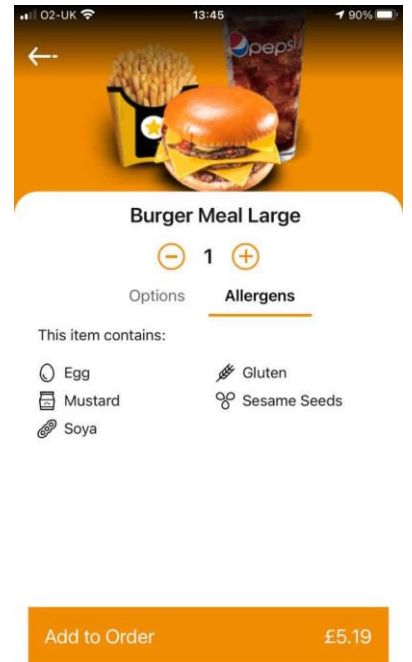

Lolly have added pre order to the existing app functionality. You can now pre order items for collection same day or days in advance. Full app features are detailed below. The app, which will look and feel as your very own app integrates seamlessly with your existing Lolly back office and epos solution.

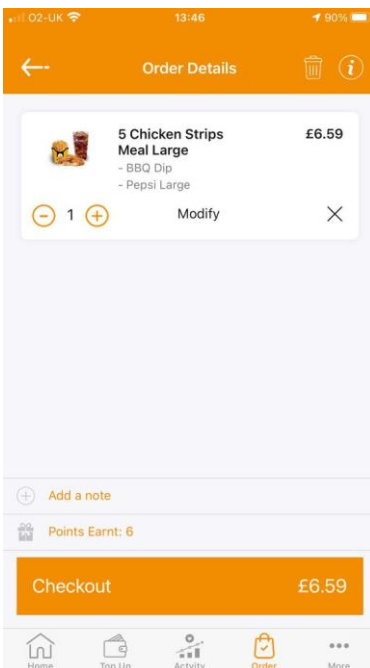

Optional Points/Stamps

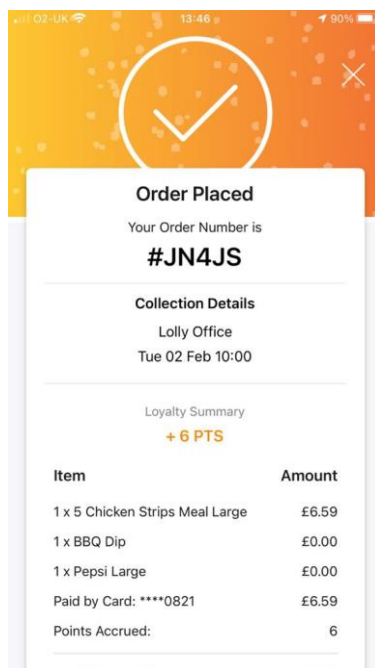

Pre Order Selections

Order Complete

Optional In App Account Top Up

Full App features:

- Pre Order for collection same day or in advance
- Pre Order App notifications including – Preparing and Ready to collect
- Loyalty Stamps (With interactive stamp cards) and Loyalty Points
- Customer VIP pricing
- Allowances (EG give a daily/weekly allowance to customers/staff)
- E receipts
- Use account balance or use In App Top Up
- Use the App at Lolly Pos or Self serve
- Re-order your previous orders at self serve
- Historical information
- Locations with interactive maps and store information/opening hours
- Send notifications to your customers
- Export customers to send email campaigns (If agreed to be contacted)

For APP enquiries please contact the [Lolly Sales Team](#)

Kitchen/Drinks display enhancements

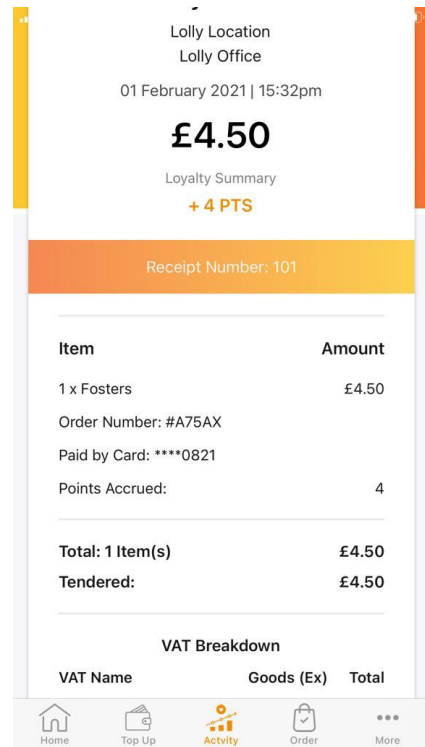

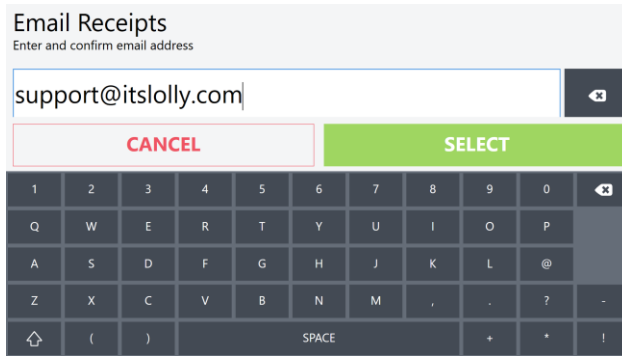

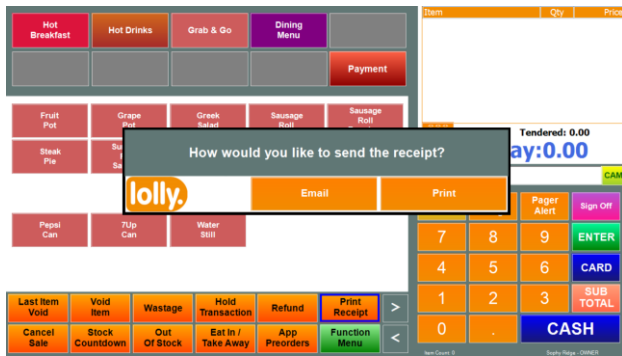

We have added new features to enhance your experience using the kitchen and drink order display units. These include:

- Darker background for improved visibility
- Select number of visible columns and rows to utilize full screen
- Upload sound of your choice for incoming order notifications
- Strike through item when ready – Now bold and green
- Option to remove Order title
- Open order in full screen to view large order
- Improved page navigation and visibility of more items per order

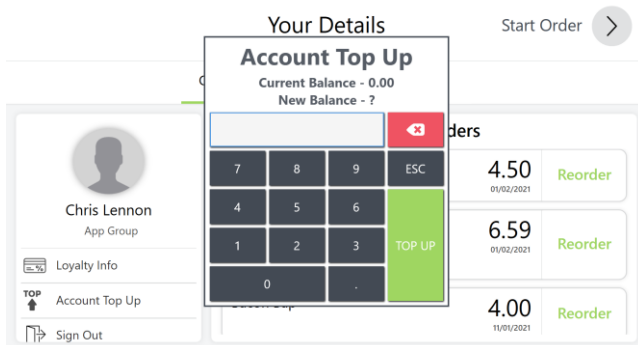

E Receipt

Lolly Pos, self serve and Lolly app all support the new E Receipt feature. Where possible all receipts can be disabled and printed or emailed on request. For Ereceipt, you can simply enter the customer's email address and they will receive the transaction & payment receipts. If they use the app at point of sale an E Receipt will process automatically.

Account Top Up

If you are using accounts withing the system it is possible to top up your account balance across the whole platform. LollyPos originally had this functionality but this has now even extended to self serve and the Lolly App.

Menu rotations

A brand new feature allowing menus which change daily, weekly, monthly or any duration of your choice. For example Week 1 (Monday – Fri) will rotate every week/month. The till user or customer using self serve or Lolly App will only see items applicable for that day.

Note: displayed items may appear differently on the Lolly Till, please double check all layouts on a terminal.

Tip: If you want to quickly switch PLU buttons from place to place, first select a button, then hold down the 'Alt' key and selecting another and they will switch positions.

Integrations

We have integrated with new partners giving even more flexibility to the Lolly solution. Beaver Trison (Digital menu signage), Parim (Workforce management) and Market Man (Stock Control Specialists) for more extensive functionality in those specialist areas.
